The Comfort Problem in Every Home You Walk Into

- Legacy 24V systems blast constant airflow at the whole house
- On/off operation wastes energy and drives up bills
- Wide temperature swings leave every zone fighting for comfort

Upstairs and Downstairs temperature differences

Different rooms feel warmer or cooler than others

Meet the Daikin Zoning Solution

This is intelligent zoning, purpose-built: modulating dampers, a variable indoor blower, and a variable-speed inverter compressor working as one to deliver precise comfort and cut energy waste.

Inverter Control

**Variable Speed
Blower**

**Fully Modulating
Zone Dampers**

WHY DAIKIN ZONING WINS: KEY FEATURES

- Up to six independently controlled zones — one system, total comfort
- Compatibility with Daikin ONE+, ONE Touch, and Amana Smart Thermostats
- Inverter-Specific Control with Automated Airflow Management
- No more bypass dampers — an integrated differential pressure sensor does the work
- Remote monitoring control and Advanced Diagnostics using SkyportCare

WHY DAIKIN ZONING WINS: KEY FEATURES

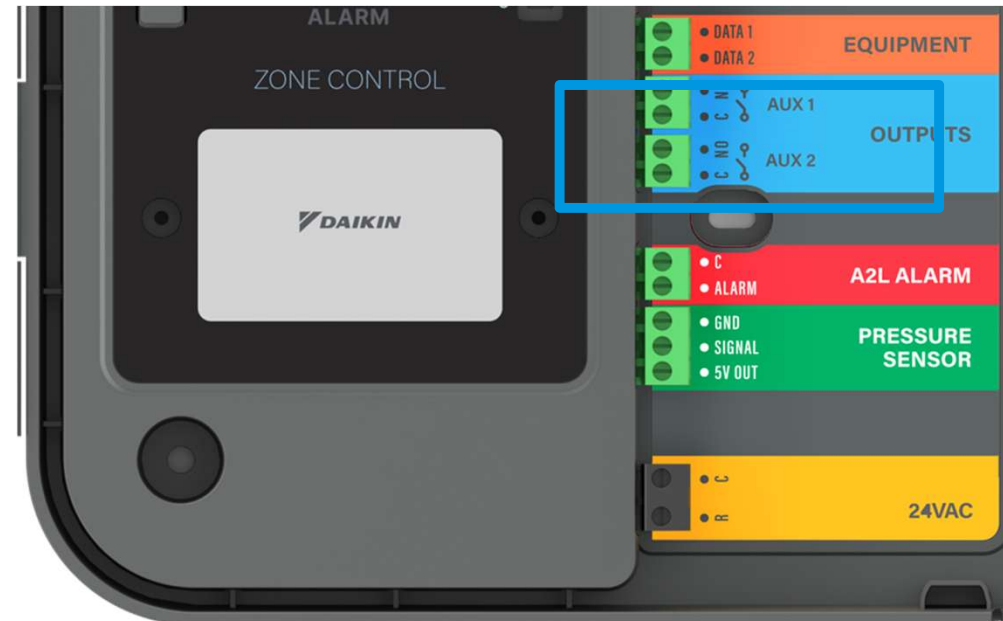

- Compatible with all 35s 3-wire Damper models
- Board includes two auxiliary contacts: Built-in AUX terminals to support humidity control, AUX heat source, and future enhancements without rewiring
- Zone-level alerts for damper failures, communication loss, and airflow issues to protect equipment and comfort
- Integrated A2L alarm interface, UL-listed zone board, and organized wire routing for simpler installation

Smarter Comfort, Built In — Zone Control That Does More

Two Auxiliary Contacts Included

- Unlock total home comfort with the Daikin Zone Control Panel — two built-in dry contact relays effortlessly power both AC and DC auxiliary devices.
- Configure each one right from the **smart thermostat** setup menu
 - Whole house humidifier .
 - Whole house dehumidifier .
 - AUX heating source .
- Local wiring saves cost.

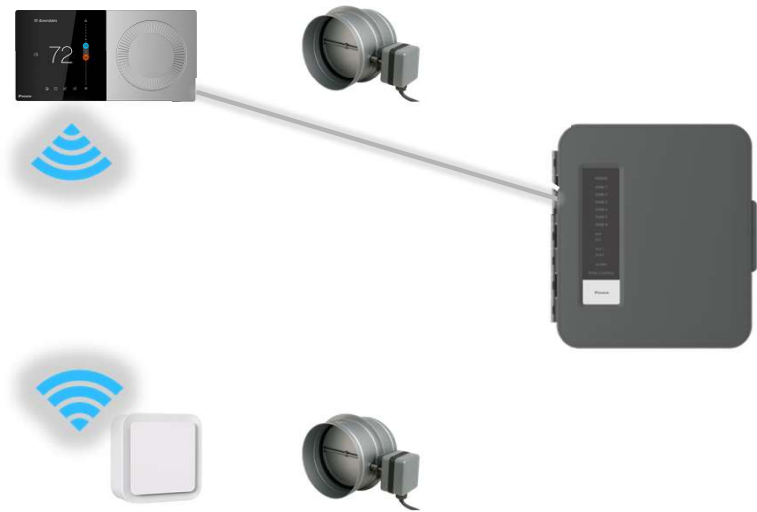

Configure It Your Way: Wired or Wireless

■ Wireless (One+ Only)

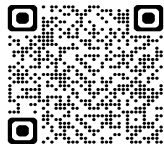

■ Wired

Wired or wireless, you can bring zoning to any retrofit — no tearing open finished walls to run new thermostat wire.

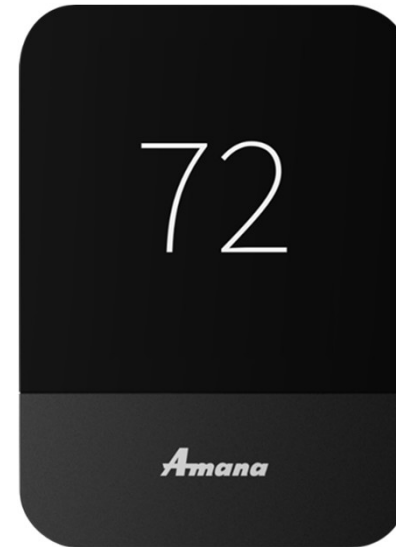

Works With the Thermostats You Already Trust

- Daikin *One+* & Daikin One Touch smart thermostats.
- Daikin Wireless RHT sensor when paired with a Daikin *One+*.
- Amana brand Smart Thermostat.

Daikin *One+* & Daikin Touch
Smart thermostat

Requires firmware revision 4.0.10 or higher

Amana brand
Smart Thermostat

A Thermostat with options

Daikin One+ Thermostat

- Can be primary or additional zone thermostat
- 2 Aux Output
- Click wheel
- Mode active light bar
- Voice control by Amazon Alexa, Google Assistant
- Wireless RHT sensor compatible

Daikin Touch / Amana Touch

- Can be primary or additional zone thermostat
- Sleek design
- Voice control by Amazon Alexa, Google Assistant
- 1 Aux Output

Wireless RHT sensor

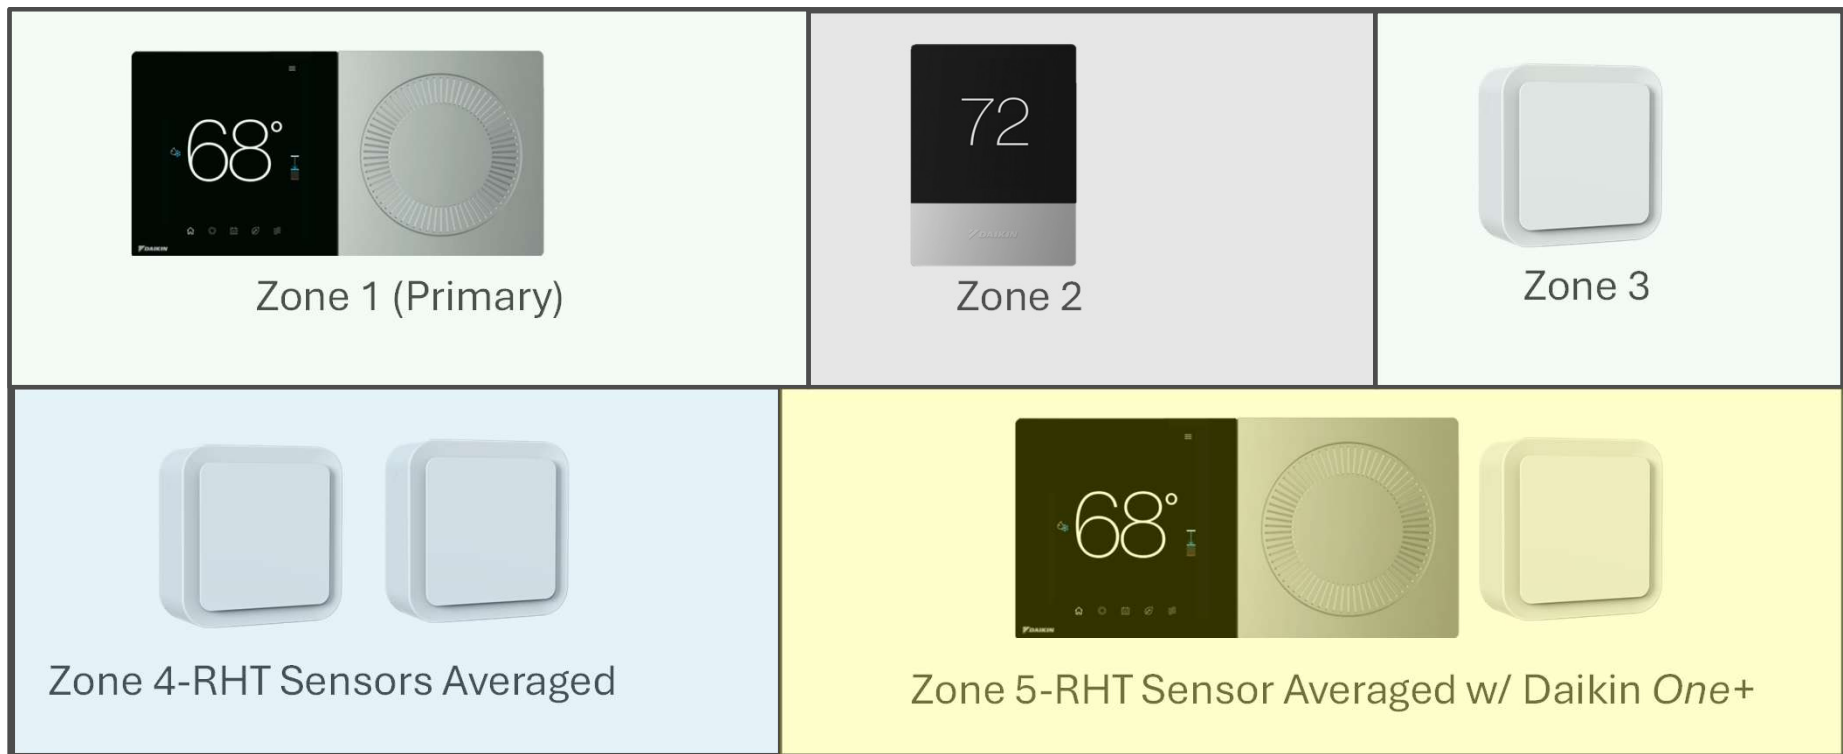

- Save on wiring for an additional zone
- Must have an Daikin One+
- Compatible with Daikin One+
- Up to 8 sensors per thermostat
- No Wi-fi needed, 1 year battery life

Greater flexibility with wired and wireless options

- You can use the wireless RHT sensors as a zone device.
- You can connect up to 8 RHT sensors to 1 Daikin *One+* Thermostat.

Example

Works With the Dampers You Already Install

- Daikin Zone Control Panel was designed to work with any 24VAC PO/PC damper actuator with a 35s travel time.
 - Each zone can hold up to **6VA** worth of damper motors. Calculate your total damper output based on your zone and duct layout.

Everything You Need in One Box – DOZP-6-ADA-A

Daikin Zone Controller

Quick Start Guide

screws

Differential Pressure Sensor

Quick Start Guide

2 pitot tubes

16ft of rubber tubing

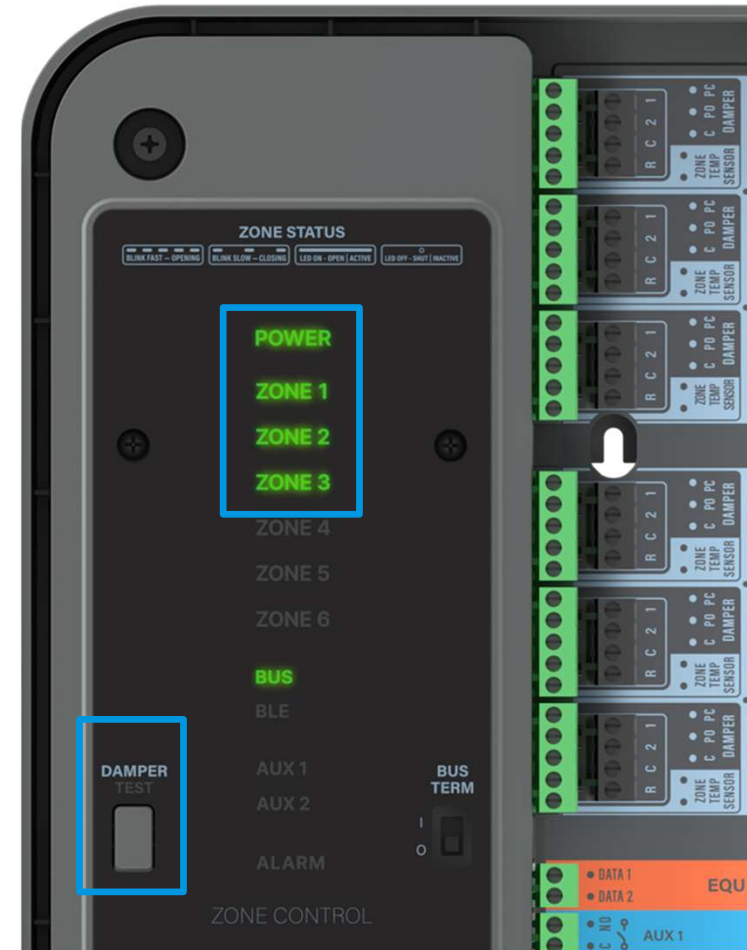

Smart Pressure Control, Dialed In Out of the Box

- Pressure sensor comes with default settings:
 - Minimum 0.5" wc.
 - Maximum 0.7" wc.
- Pressure adjustments when filter box is included.
- Has 2 pressure release algorithms.
 - Normal release algorithm
 - Aggressive release algorithm-

Auto Zone Detection & Damper Test

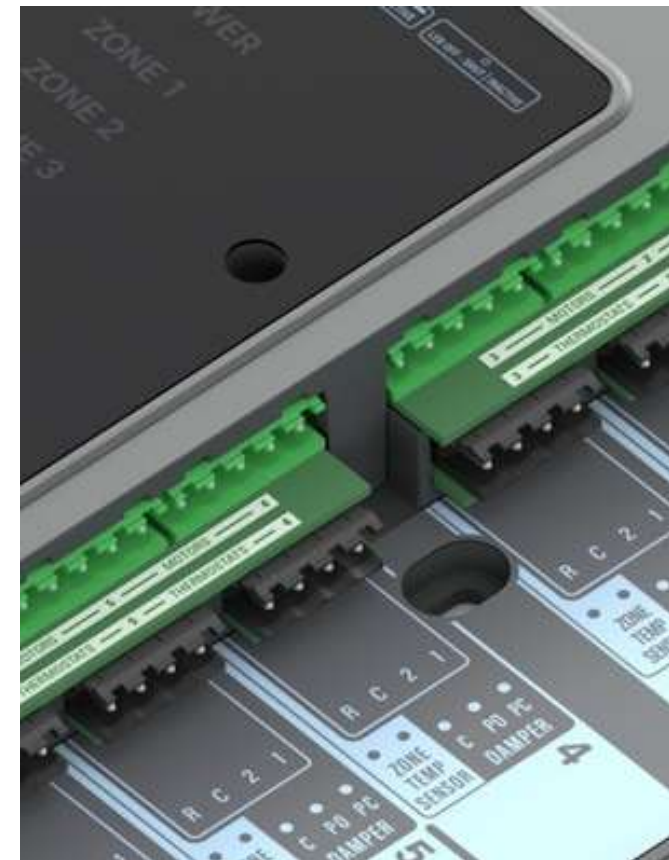

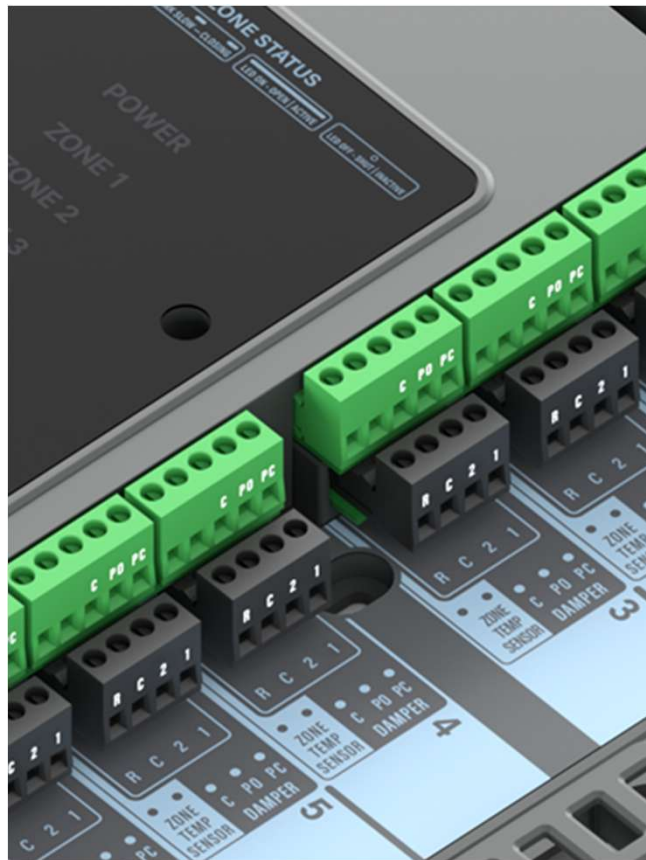

- Zone board will check all zones during power up. If a zone damper is detected, the zone board will turn ON the corresponding green status LED on the front panel.
 - Zone board automatically checks all zones every 5 minutes.
- Damper Test Button.
 - Press once: Opens all dampers, then closes them one by one. “Test” LED blinks green during test.
 - Press 5 secs: Keeps all dampers open. “Test” LED stays Solid green. Press 5 secs again to exit test

Built for the Installer: Removable, Labeled Connectors

Removeable Connectors

- Removable connectors make it easy for installation and future serviceability.
 - All the connectors are labelled for easy identification.

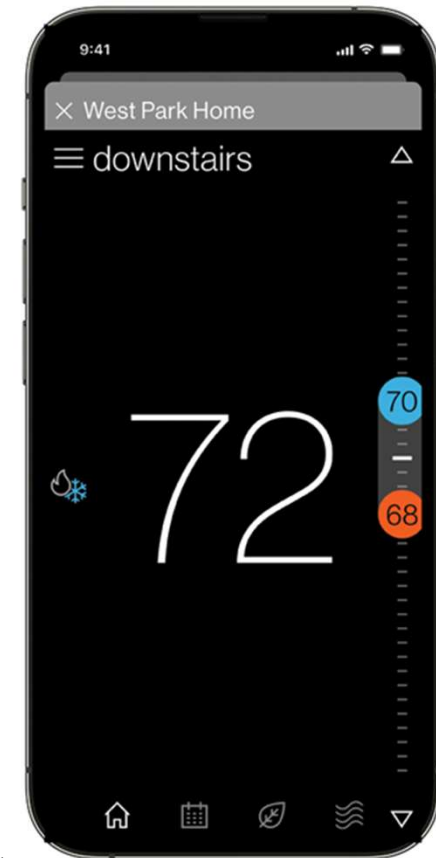

SkyportHome: Total Comfort in Their Hand

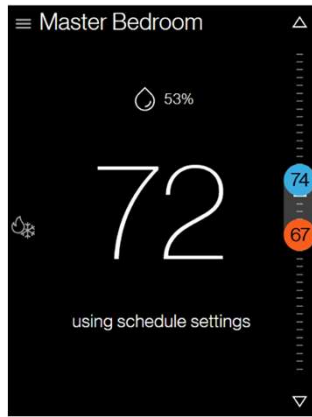

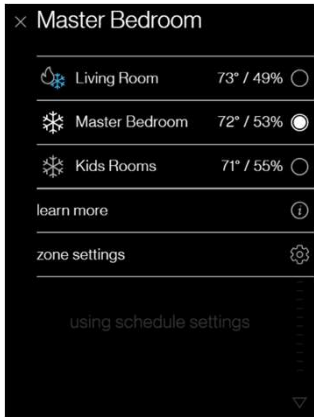

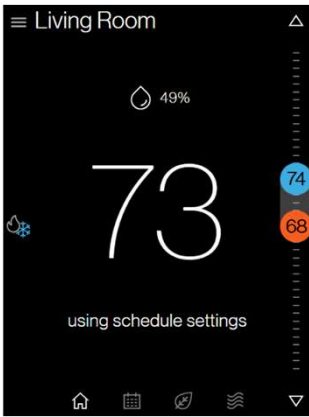

The *SkyportHome* app is designed to work with Daikin's smart thermostats, helping users remotely manage and optimize their home's heating and cooling system. The app offers a range of features for monitoring and controlling temperature, indoor air quality (with accessory), and system performance, enabling users to optimize comfort and energy efficiency.

- **REMOTE CONTROL OF THERMOSTAT**
- **AIR QUALITY MONITORING**
- **ENERGY MANAGEMENT AND USAGE**
- **ALERTS AND MAINTENANCE NOTIFICATIONS**
- **INTEGRATION WITH SMART HOME SYSTEMS**
- **MULTIPLE ZONES CONTROL**
- **GEOFENCING**
- **USER-FRIENDLY INTERFACE**

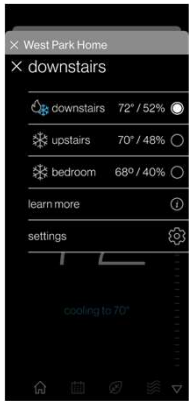

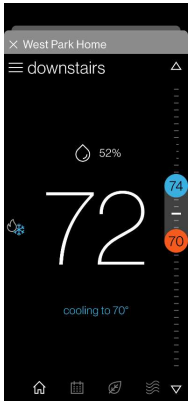

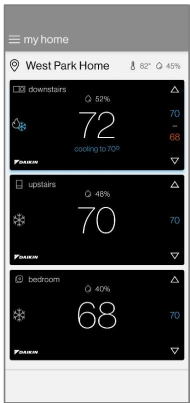

Alexa, Google Assistant

The Whole Home, Right From Their Phone

From the primary zone thermostat, you can control a zone of your choice by going into the menu screen in the top left corner.

Your mobile device now delivers the full thermostat experience, replicating every function available at the unit itself.

You can go into each zone are managed through individual tiles, while the primary view allows selection of the desired thermostat.

SkyportCare: Tools That Grow Your Business 24/7/365

Proactive tools and insights that help you save time, reduce costs, and grow your business 24/7/365

Quality Install Tools

- Step-by-step commissioning process
- Automated charge verification
- Official commissioning reports
- Fewer errors & callbacks

Dashboard & Visibility

- Connected systems at a glance
- Team member & customer management
- Proactive system health monitoring
- Home sale alerts for new leads

Operational Efficiency

- Reduced operational costs
- Improved team productivity
- Simplified troubleshooting with data
- Enhanced team collaboration

Remote Access & Diagnostics

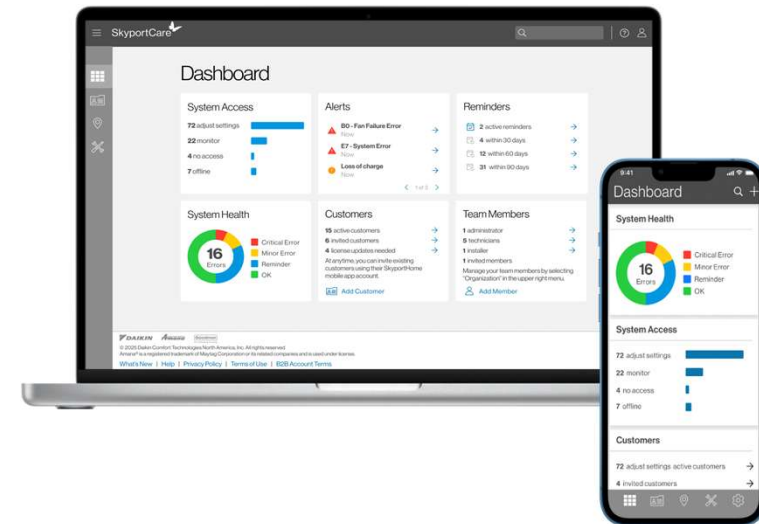

- View & adjust thermostats remotely
- Historical performance insights
- System health alerts & notifications
- Eliminate unnecessary truck rolls

Revenue Growth

- Higher-value maintenance agreements
- Upsell relevant products & services
- Stronger brand loyalty & referrals
- Increase business valuation

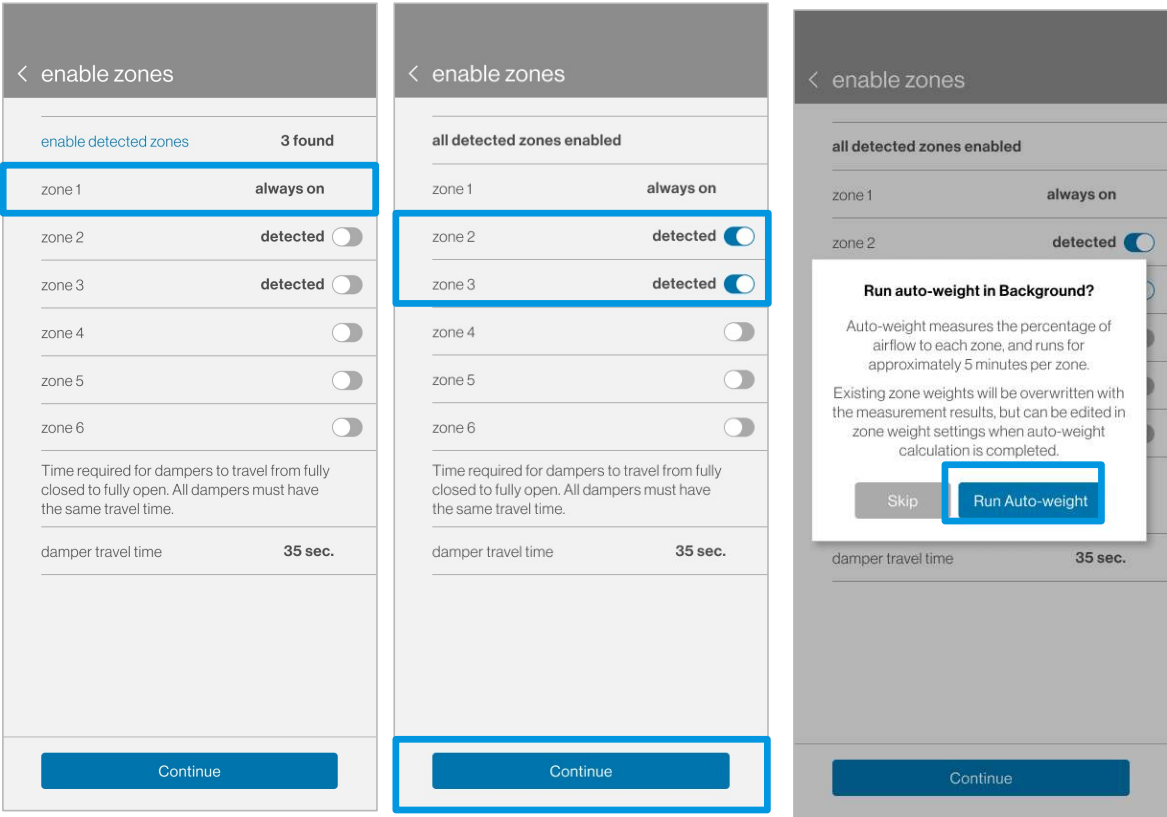

Customer Engagement

- Branded homeowner reports
- Monthly energy reports with your logo
- Automatic homeowner invitations
- Ongoing touchpoints build retention

Fast, Guided Commissioning With *SkyportCare* App

Guided, step-by-step setup that gets every zone right the first time

How Daikin Zoning Wins

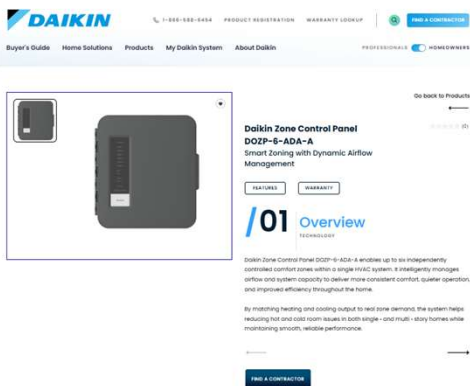

OLD WAY (**more parts, more labor, more time**)

- ☒ Requires Bypass Damper or additional Boards
- ☒ Requires the use of multiple thermostats
- ☒ Accessory Board for A2L
- ☒ Commissioning through the zone board LCD screen and push button configuration is not very practical
- ☒ zone board control software doesn't allow for full inverter capabilities and logic

New Daikin Zoning (**Less time, cost effective configuration**)

- ☒ Does not Required Bypass and includes pressure sensing
- ☒ Cost effective options with wireless sensor for zones
- ☒ Does not require accessory board in most cases
- ☒ Commissioning through the thermostat or Skyport Care
- ☒ Fully integrated board with Inverter operation.

© 2026 Daikin Comfort Technologies North America, Inc.

The Daikin Advantage

- Requires included pressure sensor for auto-weight and static pressure control
 - This save overall cost to the job and is very easy to install and setup.
 - Auto-weight saves time and adds precision during commissioning process
- Use of wireless sensors
 - Reduces the cost of using additional zone thermostats.
- Built in A2L integration
- Built in tie downs that allow for proper wire management
- Commissioning is done from the comfort of thermostat or Quality Installation within SkyportCare
- True pass-through communication bus allowing for full FIT capabilities and logic

EVERY HOME YOU QUOTE IS A ZONING OPPORTUNITY -
Daikin Zoning Solution is your next big differentiator.
