

Dear customer,

Thank you for choosing us for your HVAC needs.

To assist our technician when setting up your new Lennox S40 thermostat account, and connecting the thermostat to your wi-fi network, please complete the information below:

1. The name of the wi-fi network to be used (2.4 GHz is preferred & not a guest network)

2. Your wi-fi network password _____
3. Name you would like your account to be listed as _____
4. Home address _____
5. Phone number for the account _____
6. What you would like the name of the system to be _____
7. Your e-mail address _____
8. Password to be used for the account _____
9. Permission for remote access? YES or NO

Our technician will leave this form with you after your account has been created. This will allow you to control your system remotely and your thermostat will receive any firmware updates as they are released.

Refer to <https://www.lennoxsmartertogether.com/help/index.html> for additional information about your new Lennox S40 thermostat.

Thank you
